Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 21 February 2007 has been entered:

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

United States Patent No. 6,261,051 (Kolacny) describes a blade having a convex forward surface and a concave back surface (see FIG. 8), wherein the convex forward surface has a radially inward portion and a radially outward portion, and the concave back surface has a radially inward portion and a radially outward portion. Each portion has a radius of curvature. The radius of curvature of the radially outward portion of the convex forward surface is shown as 0.985 in FIG. 8, and the radially outward portion of the concave back surface is similarly shown as 0.985. Whereas the radius of curvature of the radially inward portion of the convex forward surface is shown as 0.400 in FIG. 8, and the radially inward portion of the concave back surface is shown as 0.690. Therefore, the radially outer portions of the forward surface and the back surface have a greater radius of curvature than the radially inward portions of both the forward and

Art Unit: 3745

back surfaces, which teaches away from the claimed relative relationships of the radii of curvatures.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Contact Information

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Richard Edgar whose telephone number is (571) 272-4816. The examiner can normally be reached on Mon.-Thur. and alternate Fri., 7 am- 5 pm EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Edward Look can be reached on (571) 272-4820. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
